

A special visit for Jimmy Bunny

In the Bunny home, the brothers and sisters are playing.
But not little Jimmy. For, you see, he is in a lot of pain.

We must do something to help you.
We will take you to the **hospital**.

But I don't want
to go there again...

They have a **medicine**
that might help your pain.

Really?

And so the Bunny Family drives to the hospital.
Daddy Bunny steers carefully as the Animaltown cars zip around him, until...

The first part of the medicine is in **this syrup.**

The second part of the medicine is just a **few little drops.**

Your parents will give you more at home each day.

*drip
drip
drip*

But Doctor Nosewell, I feel the same! Why hasn't anything **changed?**

Well done for asking, Jimmy. It might take a **few weeks** for the pain to go away.

Just **tell your parents how you feel.** We'll do our best to make you feel better.

Now I can show you the tests you will need to do after taking the medicine.

This line going up and down shows your heart beating.

Cool!

Oh, no! Why does she have that needle?

She just needs to take a little bit of your blood.

It's really **quite normal** to be frightened, but I'll make you sure you will **hardly feel it**.

Hey, it's not as bad as I expected!

My little hero! You deserve a prize.

Now you will meet other children who are taking this medicine like you.

GAPP – GAbapentin in Paediatric Pain

COORDINATOR

Consorzio per Valutazioni Biologiche e Farmacologiche (CVBF)

GABA-1 Clinical Trial

EudraCT Number: 2014-004851-30

SPONSOR

PHarmaceutical Research Management SRL (PHARM)

Randomized, double-blind, double-dummy, active controlled, multicentre, non-inferiority phase III study to compare the pharmacokinetic, efficacy and safety of gabapentin liquid formulation to tramadol in children from 3 months to less than 18 years of age experiencing moderate to severe chronic neuropathic or mixed pain.

The **Patient Advisory Board**, established in the framework of GAPP Project and coordinated by Rebecca Lundin (PENTA Foundation), has contributed to the **scientific contents**.
